

SILENT MODE

MUSIC FOR MOVING IMAGE

ABOUT US

Here at Silent Mode, our primary focus is delivering the highest quality musical and audio solutions to a wide range of clients. We focus on original composition and supporting sound design work. Alex Bradley is the lead composer whilst David McMichael handles sound design & deliverables.

Alex is a BAFTA member and has been recognised as a distinguished contributor to the UK film, TV and commercial industries in his field. He attended Saint Paul's Cathedral School in London where he studied cello, voice and music theory. He is also a graduate of UCL University College London, where he completed a degree in History and Musicology.

Alex is a skilled string arranger and often employs a mixture of classical and synthetic instrumentation to achieve a signature textured and nuanced sound. Whenever a project calls for a more ambitious and scaled up production, our list of world class orchestrators, music preparation experts and session producers help us achieve the best and most stunning results.

David provides both technical and creative support to Alex and is a talented operator, sound designer and engineer. He is based in Paris France. Alex splits his time between Paris and London, where he keeps a private studio equipped with state of the art computing and monitoring systems, a large collection of invaluable acoustic instruments, synthesisers and processing equipment.

To date we have scored feature films, feature documentaries, broadcast short films, charity films, factual entertainment shows, PSA films, educational content, podcasts and countless TVCs.

We would love to work with you - we have the skills to help elevate any production to the highest levels of quality and creative excellence.
